

BRODIT AB INTRODUCING

CUSTOMIZED ZEBRA CRADLES & MOUNTS

2-PART MOUNTING SOLUTION FOR PROFESSIONAL INSTALLATION OF MOBILE DEVICES. ANYWHERE.

For a more secure, productive and easy working day.
Your device firmly in place within easy sight and reach.
Project specific tailored solutions, unique for your case.
Designed and manufactured by Brodit AB in Sweden.

BRODIT IN SWEDEN

The Brodit saga began in the year 1983 when taxi driver Ebbe needed a place to keep the mobile phone receiver while driving. After the shift he went home to his garage, bent a piece of plastic and attached it to the dashboard. Ebbe's solution was soon noticed by his colleagues, and as a true entrepreneur he met the growing demand and founded Brodit. Today, Brodit has widened the product range and grown into a global market leader in vehicle communication device mounting solutions.

Brodit is located in Karlsborg, Sweden. In-house design, development and manufacturing ensures full control of all details and is essential for highest quality, short lead times and delivery safety. Brodit's priority always lies in usability and customer satisfaction. A creative mix of collaboration, innovation and curiosity generates in new, unique concepts and continue to develop Brodit into the future.

This introduction presents cradle features for Zebra devices. To view a full product range with item numbers, please visit www.brodit.com and select your device.

- Established in 1983 and located in Karlsborg, Sweden
- Employs 145 people and exports to 30 countries
- In-house design, development, manufacturing
- From individual copies produced by hand, to large robotics series
- Customized device cradles, holders and vehicle mounts
- Special projects on customer request and subcontracting
- Production in high grade ABS, Acetal, Aluminum

THE BRODIT 2-PART MOUNTING SOLUTION

The Brodit 2-part mounting solution consists of a device cradle which you attach onto a vehicle mount. The products are model specific and can be combined to suit all devices anywhere.

- For any Zebra device, anywhere
- Customized cradles and mounts with various features
- Keeps your device secure and within easy reach
- For professional everyday use
- For worker safety and productivity
- Easy installation and upgrade
- Industry standard AMPS/VESA holes
- Made of high grade ABS, Acetal and Aluminum
- Designed and manufactured in Sweden

NON-CHARGING CRADLES

Brodit device specific non-charging cradles offer a perfect, firm hold for mobile Zebra devices. Provides for safer driving, worker safety and productivity when viewing, accessing and operating your device in the vehicle. Neat, discreet and robust design in durable materials to withstand the wear and tear in professional daily use. Easily slide your device in and out of the holder with a one-hand grip. You have full access to the camera and all outlets and buttons when docked. With tilt swivel, so you can adjust the angle and switch between portrait or landscape mode. Combine with a Pedestal Mount or ProClip vehicle mount to make a full mounting solution within easy reach.

- Non-charging cradles
- Customized for every device model
- Perfect fit with firm hold
- Designed for device with/without a case or accessory
- One-handed docking and undocking
- Full access to camera, scanner, outlets, buttons
- Neat, discreet and robust design
- Tilt swivel, tilts 17° and swivels 360°
- AMPS/VESA holes
- Made of high grade ABS/Acetal plastic
- Designed and manufactured in Sweden

CHARGING CRADLES CIG-PLUG CABLE

Provides for safer driving, worker safety and productivity when viewing, accessing and operating your device in the vehicle. Neat, discreet and robust design in high grade materials to withstand the wear and tear in professional daily use. Easily slide your device in and out of the holder with a one-hand grip. You have full access to the camera and all outlets and buttons when docked. Combine with a Pedestal Mount or ProClip vehicle mount to make a full mounting solution within easy reach.

- With cigarette lighter plug cable
- Durable charging via pogo pins
- Built-in protection from overcharging & short-circuiting
- Customized for every device model for a perfect fit with firm hold
- Designed for device with/without a case or accessory
- One-handed docking and undocking
- Full access to camera, scanner, outlets, buttons
- Tilt swivel, tilts 17° and swivels 360°
- AMPS/VESA holes
- Made of high grade ABS/Acetal plastic
- Designed and manufactured in Sweden

CHARGING CRADLES HARD WIRE INSTALLATION

Brodit hard wire installation charging cradles provide a neat and elegant installation without cables hanging over the interior. Keep your mobile Zebra devices charged, secure and ready to go to work at all times! Simultaneous charging of an additional device via an extra USB/Molex outlet in the charging box. Durable charging via pogo pins to withstand the wear and tear in professional daily use. Combine with a Pedestal Mount or ProClip vehicle mount to make a full mounting solution within easy reach.

- With open ends cable for hard wire installation
- Durable charging via pogo pins
- Built-in protection from overcharging & short-circuiting
- Customized for every device model for a perfect fit with firm hold
- Designed for device with/without a case or accessory
- One-handed docking and undocking
- Full access to camera, scanner, outlets, buttons
- Neat, discreet and robust design
- Tilt swivel, tilts 17° and swivels 360°
- AMPS/VESA holes
- Professional installation recommended
- Made of high grade ABS/Acetal plastic
- Designed and manufactured in Sweden

MOUNTING ADAPTERS & QUICK RELEASE POWER DOCK

Brodit mounting adapters offer an easy and secure way to mount your mobile Zebra device. Provides for safer driving, worker safety and productivity when viewing, accessing and operating your device in the vehicle. Device specific and neat, discreet design. Available with quick release for easy docking and undocking, and quick release power dock for keeping your mobile Zebra devices charged, secure and ready to go to work at all times! Easily slide your device in and out of the mount with a one-hand grip. Combine with a Pedestal Mount or ProClip vehicle mount to make a full mounting solution within easy reach.

- With quick release for easy attachment/removal
- With quick release power dock for charging
- One-handed docking and undocking
- Full access to outlets, buttons
- Neat, discreet and robust design
- AMPS holes
- Made of high grade ABS/Acetal plastic
- Designed and manufactured in Sweden

DESIGNED FOR VARIOUS ACCESSORIES

Not only do Brodit cradles offer a firm fit for Zebra devices, Brodit cradles also allow for use with various accessories. Regardless of having just the device in the cradle, or any combination of the expansion back, barcode scanner, hand strap or spare battery, your specific combination will fit in a cradle.

- RFID reader
- Rugged frame
- Rugged boot
- Handstrap
- Expansion pack
- Barcode scanner
- Extended battery pack
- Pistol grip
- Full access to outlets, buttons

EASY-SWITCHING SYSTEM

The easy-switching system enables you to upgrade the holder only, and keep the installed cables. When upgrading to a new device, you do not need to make a full installation. Same goes for maintenance in case of warranty or damage. You simply disconnect the holder from the charging cable via the Molex 6-pin quick connector, and then connect the new holder. The switch is done in a few seconds.

- Easy upgrade and maintenance
- Keep the installed cables, only switch the holder
- Quick upgrade saves a lot of time and money
- Switch made in a few seconds

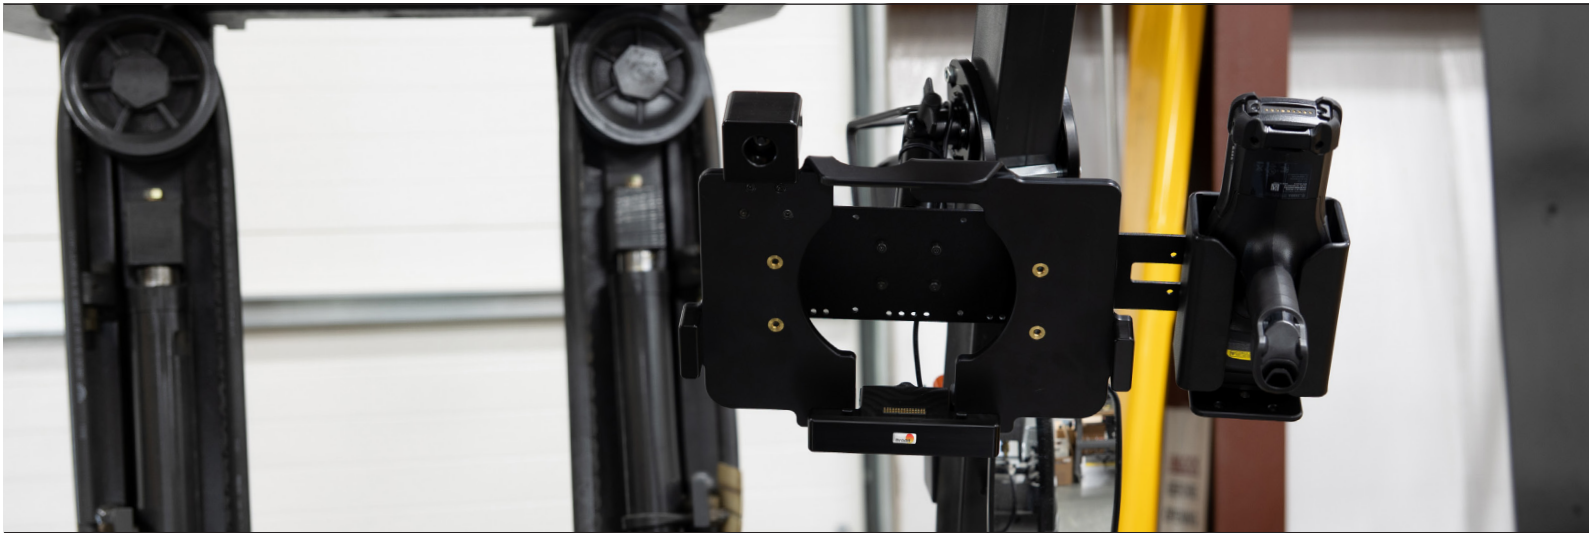

CONNECTIVITY INTEGRATION

For connection to external devices, charging or Ethernet.

- USB on the go
- Powered USB-A port
- 30-pin connector
- Integrated cable clamp
- 12V Power port
- 220 V Barrel Jack
- USB Host port
- Ethernet port

STANDARD ATTACHMENT AMPS AND VESA HOLES

Brodit products are available with industry standard hole patterns, such as AMPS and VESA 75/100. Most of the product range come with AMPS holes, and larger cradles also have the VESA standard holes. This means that all Brodit products fit together; you can match any device holder or cradle with any mounting platform and make a quick and easy installation. Screws are included.

- Match any cradle/holder with any mounting platform
- AMPS holes on ProClip vehicle mounts
- AMPS holes on Pedestal Mounts
- AMPS holes on device holders and cradles
- AMPS or VESA 75/100 holes on mounting accessories
- VESA 75/100 on device cradles
- Screws are included.

KEY LOCK & SPRING STUD LOCK

The key lock block comes with a standard key (2 keys included) to make it easy to manage a large fleet of holders without having to track individual keys. Random keys can be requested at the time of purchase for more secure environments.

The spring lock block provides some additional security for holding the device in place in environments that have excessive vibration.

- Provides additional security
- Keeps device in place in vibrating environments

WITH TOP SUPPORT

Top support keeps the device in place during intense vibrations. Easily slide your device in/out of the holder and operate the top support with a one-hand grip.

- Keeps device in place during vibrations
- Easy one-hand operation

VIBRATION DAMPER TILT SWIVEL

An accessory for reducing vibrations and chocks in environments with intense vibrations, for example for use in forklifts. Is to be placed between the cradle/holder and the mounting platform.

- Reduces vibrations and chocks

HOT SWAP BATTERY

Battery swap slot allows for easy replacement of the battery while the device is docked in the cradle.

- Switch battery while docked

CHARGING TABLE STAND

Start your workday with a freshly charged device! This is the solution for you who want to have charging to your device in the office. The tablestand offers a convenient charging solution and does not take much space. The device is easy to place into the tablestand and the charging starts automatically when docked. Versions available as one bay or several slots. Worldwide adapters included.

- One bay or several slots
- Easy one-hand insertion/removal
- Worldwide adapters included.

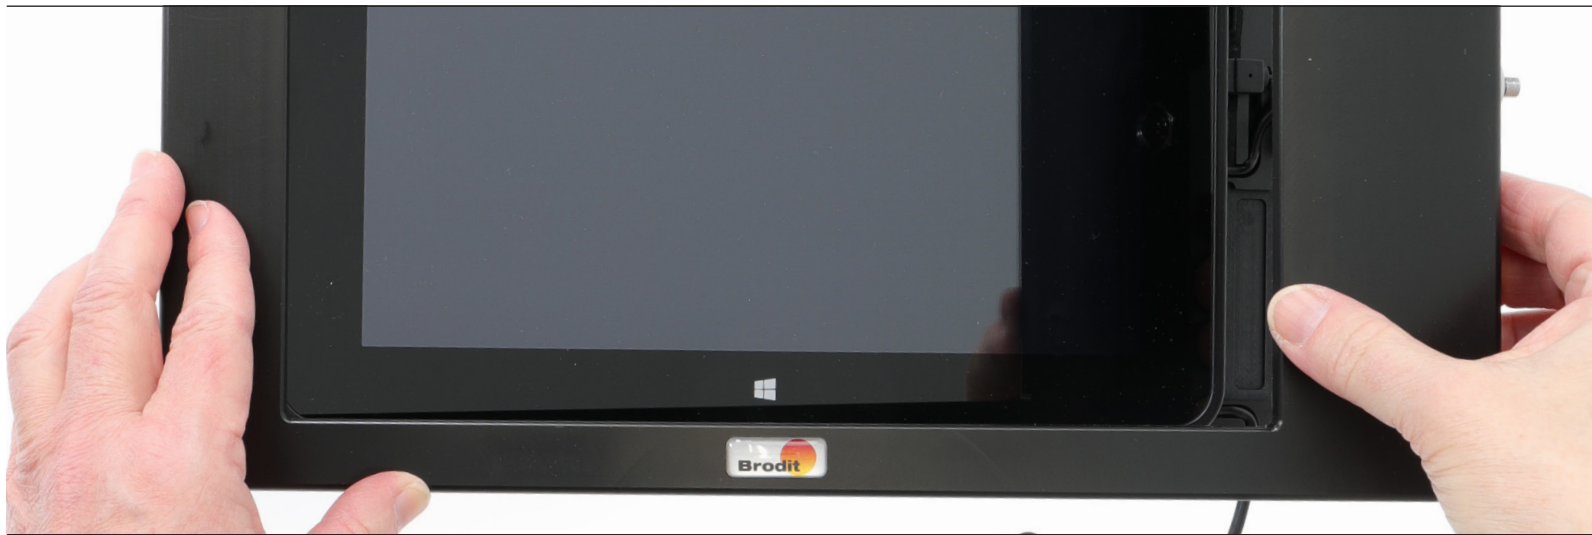

MODULE UPGRADE CRADLES

The robust design Module Upgrade Cradles are available with and without charging and key/spring lock, and the same features as modules for upgrade or replacement. The non-charging cradle allows hot-swap battery swap of extended batteries, and the charging cradle is the perfect choice when you want to have both power and USB-Host functionality. The cradles have been tested for vibrations for use in a normal forklift environment. You have full access to the camera, scanner, buttons and ports while docked. Easy one-hand insertion and removal.

- Modular key lock/spring lock add-ons
- Modular charging block upgrade/replacement
- For rugged frame with 30 pin connector
- For use with/without any expansion back module/handstrap
- Vibration tested for forklift environment
- Charging cradle features USB-A host port
- Non-charging cradle allows battery hot-swap
- Easy one-hand insertion and removal
- Cable management options
- High grade Acetal- & ABS plastic
- Steel backplate with AMPS+VESA 75 holes

WALL MOUNT TOUGH SLEEVE

Choose a wall mount tough sleeve when you want to secure your tablet and still have it easy accessible. Perfect for use in stores, at exhibitions and any place where you want to use your tablet without having it easy removable.

- Wall mount tough sleeve

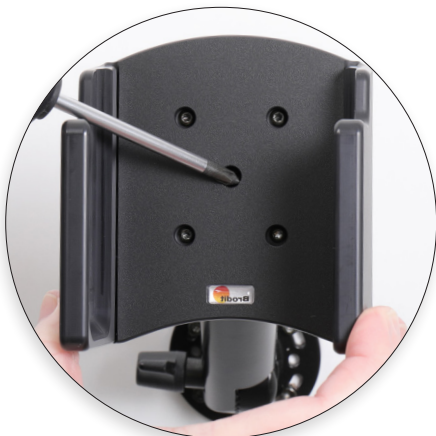

SHARE CRADLE

Robust cradle that accommodates two devices simultaneously. Fits with either device facing outwards. With tilt swivel so you can easily adjust the angle for better viewing.

- Holds two devices
- Fits with either device facing outwards
- Tilts 17° and swivels 360°.

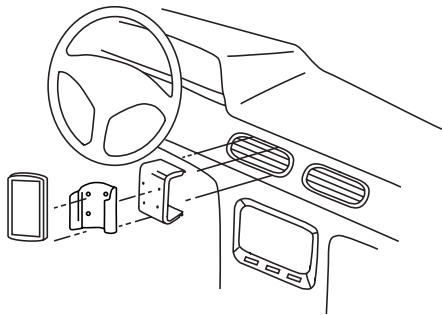

PEDESTAL MOUNTS

A modular system for a stable and strong installation of heavier devices. For professional everyday use in tough environment. Durable light-weight products, that withstand a lot of weight. Complete sets, or mix and match your own solution. With AMPS holes, compatible with all Brodit device holders.

- Provides improved working environment
- For device within easy sight and reach
- For use on any flat surface, round pole or pipe, square rod
- With AMPS holes
- Discreet design, color: black
- Solid and hollow range
- Made of aluminum

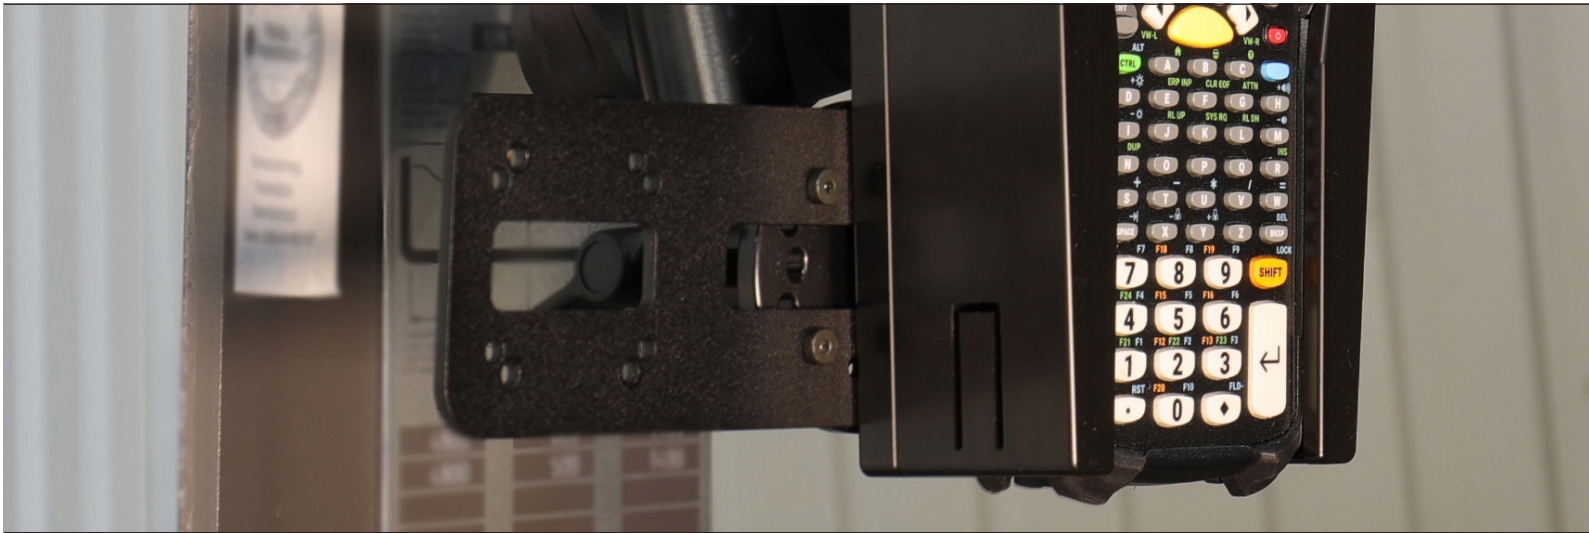

PROCLIP VEHICLE MOUNTS

The ProClip Mounting Platform is a vehicle specific mounting bracket that snaps into place in gaps in the vehicle. Available for all car models. Quick and easy installation, no special tools or dismatle of the dashboard is required. With AMPS holes, compatible with all Brodit device holders.

- Customized for every vehicle model
- Perfect fit
- Firm mounting platform
- Discreet design
- Various positions
- Within easy sight and reach
- No interior damage
- Easy installation
- With AMPS holes
- Standard ProClip for phones and smaller devices
- Extra strength ProClip for tablets and larger devices
- Made of high grade ABS

MOUNTING ACCESSORIES

Mounting accessories add functionality, usability and features when installing a device. Choose from a wide range of mounting plates, tilt swivels, mounting adapters, hinge mounts and other useful mounting accessories.

- Extension plates
- Angled wedges
- Mounting adapters
- Hinge mounts
- Tilt swivels

FUTURE DEVELOPMENTS

Brodit offers case specific tailored solutions, unique for your project. For your next project, we can develop products with existing features, or create a new one in cooperation with you. Brodit has own design and production in Sweden, this means we maintain full control of all steps in the process and deliver highest quality within short lead-times.

- Key-lock or spring stud lock to lock your device in place
- USB host functionality for connectivity
- Ethernet connectivity
- Top support for extra secure hold
- Charging docks, single or multiple slots
- Solutions for device with pistol grip or other accessories
- Easy switching system for quick upgrade
- Tough sleeves with sliding power block
- Mounting adapters and plates for a firm installation
- MultiMoveClip for easy attachment of several devices in several different locations
- ...and much more. Please contact Brodit and tell us more about your future projects!
